Congressman Campbell Says Standard Dictates Oil Grade-Thinks State Should Have Greater Jurisdiction.

REPUBLIC SPECIAL

Kansas City, Mo., Aug. E.—Congressman P. P. Campbell of Pittsburg. Kas., whose resolution in Congress started the investigation into the Standard Oil methoda, was in Kansas City to-day on his Lay to Washington. Kas.

"Join D. Rockefeller likes commendation." said Mr. Campbell. "The praise of men is meat and drink to him, and I believe that the campaign against the System" in the last few months has caused Rockefeller a good deal of suffering. REPUBLIC SPECIAL

caused Rockelener a guod fering.

"The people are thoroughly aroused and propose to stay with the fight until the present monopolistic system is done away with. I am glad to note the movement for the building of independent packing plants. I hope it will succeed. The people in my country are prepared to support independent packing-houses."

DIFFICULT TO GET RESULTS.

"How is the campaign against the Standard Oil progressing?"

"So far, I think, that the maximum rate and the antidiscrimination laws have brought the best results. I have made inquiries from producers from Paola, clear down to the south end of the field in Kansas as to the pipe-line common carrier law and have asked if anyone had taken advantage of the law or contemplated such a step.

"All to whom I have talked seemed to think it would be very difficult to get practical results, in view of the different grades of oil at one end of the line and the different uses to which customers at the other end of the line want to put the oil. DIFFICULT TO GET RESULTS.

the different uses to which customers at the other end of the line want to put the oil.

"If someone can devise a practical method of using pipe lines as common carriers, the question will then have to be settled by the coarts as to whether or not lines that have not exercised the right of eminent domain can be declared common carriers.

GIVH INSPECTORS MORH POWER.

"The newspapers can make a good sug-gestion for a beneficial and practical piece of legislation. That is to extend the jurisdiction of the State Oil Inspector over the product of oil wells.
